

SCMH

Sealless Combination Tool for Steel Strapping

Easy to operate

The SCMH is ergonomically designed to help reduce operator fatigue. It features double gears for high tension, two-strap loading, manual slack pull and minimal sealing effort.

Simple

It has a low maintenance design with simple adjustments and few wear parts.

Rugged

Manufactured with Signode metal and alloy parts, the SCMH is durable enough for the most demanding applications.

Specifications

Strapping: For use with 5/8"-3/4" (16 mm-19 mm) Magnus® strapping in gauges from .025"-.031" (0.51 mm- 0.79 mm)

Joint type: Three key sealless

Weight: 11 lbs. (5.0 kg)

Part numbers:

SCMH-58: 424510

SCMH-34: 424500
